EDUCATION

BINGHAMTON UNIVERSITY | BS IN COMPUTER SCIENCE

May 2017 | Binghamton, NY

Watson School of Engineering Dean's List

Offensive Security Certified Professional (OSCP) - July 2018

EXPERIENCE

VIMEO | SECURITY ENGINEER

December 2017 - present | New York, NY

- Manage Vimeo, Livestream, and VHX bug bounty programs. Talk with researchers, triage vulnerabilities, and work with developers to remediate found problems.
- Internal penetration testing of Vimeo, Livestream, and VHX web apps/infrastructure and Mevo IoT hardware camera.
- Remediation of vulnerabilities found via bug bounty program or internal penetration testing. Write PHP/Node.js/Ruby code to fix security holes in web app or work with appropriate dev team to triage and assign.
- Technical security training/awareness for developers and general security evangelicalism for all employees.

MWR INFOSECURITY | SECURITY CONSULTANT

May 2017 - December 2017 | New York, NY

- Penetration testing of web app, infrastructure, iOS/Android app, and hardware of various clients in the financial and software sector.
- Worked with clients throughout an engagement and produced a technical report containing methodologies and found vulnerabilities for each engagement.
- 20% research time used on research into reverse engineering and penetration testing of open source software

ERNST AND YOUNG | SOFTWARE DEVELOPMENT / FORENSIC TECHNOLOGY INTERN

June 2015 - August 2015 | New York, NY

- Developed named-entity recognition program to extract critical information from text.
- Wrote Python web scrapers to gather competitor data and assess EY's position in the market.
- Forensically processed and analyzed evidence hard drives.
